Speakers

- **Dr. Dr George E. Dafoulas,** eHealth services clinical consultant, Cities Net SA, Greece

- **Birgit Beger,** Chief Executive Officer, the European Cancer Organisation

- **Dr Nicky Hekster,** COCIR Lead member in Digital Health and EMEA Technical Lead at IBM Watson Health

- **David Brackman,** COCIR Lead member in Digital Health and Global Product Manager Advanced Visualization Products & Solutions – Philips Healthcare

Questions for Discussion (1/2)

1. Will AI replace Doctors? On the no-side arguments: empathy, moral judgement and emotion. Hard-wiring learning machines for ethical behaviour?

2. Transparency of algorithms, human back-stop, liability and insurance?

3. How can we display more leadership around the data to leverage its potential?

Questions for Discussion (2/2)

1. As a sector, do we have to get better at translating our understanding of healthcare (and the dynamics of non-health determinants of health) into concrete knowledge that can be put to work?

2. How can we get better at building transparency and public acceptance?
